

TU Clausthal

Welcome to TU Clausthal

Willkommen 欢迎 Bienvenue Tervetuloa

Irene Strebl

Vice President (2019 – 2023)

and

Prof. Dr. rer. pol.

Heike Yasmin Schenk-Mathes

Vice President for Equal Opportunity
and Young Academics

Dear colleagues,

We are happy to welcome you at our university! We are looking forward to working with you!

As a modern and research-oriented university we are not only important for the region but have also built strong national and international networks. TU Clausthal (TUC) takes on current and socially important questions and thus shaping its profile. Our research, teaching and transfer revolve around the circular economy as our core focus.

Study, research, teaching and administration at TUC are characterized by the personal atmosphere. About 3,500 students and more than 1,100 employees are benefiting from the short distances and the personal atmosphere at TUC. They can also enjoy the manifold attractions of the Oberharz in the heart of the UNESCO world heritage site.

As one of the main employers in this region, we are making sure that you are well-supported and informed during your initial period at our university. employees

are the foundation of our university. Only thanks to and together with our employees we are able to reach our goals. That is why we understand personnel development to be an integral, dynamic and sustainable process which all employees contribute to and which takes place at all levels. Thus, a welcoming culture is utmost important for us!

We have compiled some information so that you will be able to quickly and fully arrive here at TUC: In this leaflet you will learn about the contact persons for key issues as well as receive pointers to additional sources of information and advisory services. There is a map on the back for your better orientation. There is a German glossary on our homepage called "Information from A to Z" which might also be useful to you. Our colleagues from Human Resources are happy to assist you with questions re-garding the onboarding.

We wish you a successful start at TUC and hope that you will enjoy your work with us! We are glad that you are here and we are happy to welcome you to our campus in the heart of nature.

“I really enjoy working at TUC because I learn something new every day and I can count on my colleagues.”
(Anina Ziencz, Department 1, Finances)

“I like lecturing and researching at TU Clausthal because sustainability is our philosophy. This does not only include the transformative and sustainable research topics but also teaching itself. I can reach students individually and teach and learn sustainably myself.”
(Prof. Dr. Thomas Niemand, Institute of Economics and Management)

“I enjoy teaching at TU Clausthal because personal contact with the students and other teachers is very important to me. I particularly like the family-friendly work environment and the short distances at TU Clausthal. Due to the open door policy and the size of the university, the students are not just a number to me, but rather people who I can connect with individually.”
(Dr. Alena Storm, Institute of Inorganic and Analytical Chemistry)

“I really enjoy my work at TU Clausthal as precision mechanic and instructor because I really enjoy passing on my knowledge and skills to my apprentices. What I value here at TUC are the cooperation between colleagues and the exchange with the apprentices.”
(Jan Sue, Institute of Technical Mechanics)

“I quit working for another university and started working here because the size of TU Clausthal makes it much more welcoming than a university with several thousand employees. I really appreciate the personal touch in dealing with my colleagues and other employees.”
(Andrea Meyer, Department 3, Human Resources)

Contact persons

Human Resources

Our colleagues from the Department of Human Resources advise and support you in all questions regarding personnel management, collective bargaining law and civil service law.
